Hybrid Style Five
in Gray

Hybrid

As beautiful and durable as redwood is, some consumers prefer low-maintenance accessories. In response we have developed the Envirotech/hybrid line. All our products and surrounds made from redwood can now be purchased in this new offering. It's called hybrid because we use **High Density Poly Ethylene** for exposed and ground contact surfaces and pre-finished redwood for structural areas. Our furniture-grade HDPE is made from 100% recycled plastic. It has a woodgrain texture for traction, is solid color throughout (scratches won't show) and has a 5-year warranty against deterioration and fading. The combination gives us strength, rigidity, relatively lightweight and a very competitive price.

We currently inventory HDPE in Beige, Brown, Coastal Gray, Driftwood, Espresso, Mahogany, Red, Tan, Teak, Terracina Cherry, and Terracina Oak.

Redwood in Natural Stain

Did You Know?

Some interesting attributes of HDPE are that it takes eight milk jugs to make one pound of plastic lumber. Recycling plastic bottles uses 88 percent less energy to make than from virgin materials. Recycling one plastic bottle saves enough energy to power a 60W light bulb for six hours.

Did You Know?

All of our wood products are carefully crafted from select grade California Redwood, a renewable resource.

We mandate that our suppliers observe responsible forest management practices, harvest on a sustained yield basis, protect the environment and adhere to all state and federal regulations.

All fasteners are Ruspert coated; 1000-hour salt spray rated and will not corrode or discolor the redwood.

Easy Slider™

The Easy Slider™ cover carrier makes taking your spa cover on and off easy! Simply fold the cover once then glide back. The Easy Slider™ arms open with the friction of the cover against the arms. Push the cover back onto the spa, and the spring-loaded arms retract against the spa.

The Easy Slider™ eliminates lifting bulky covers and thus prolongs the life of the cover. Your cover will last longer, stay cleaner, and installation is simple.

Hybrid Warranty

Every product manufactured by A & B Accessories is thoroughly inspected and tested before leaving the factory. Each item is warranted to be free of defects from workmanship and materials for a period of FIVE YEARS from the date of original purchase. Should any trouble develop during this five-year period, call our representative at 1-800-637-0609. We may request that you return the damaged component, at your expense, to the factory at West Fork, Arkansas. If inspection shows the trouble is caused by defective workmanship or material, A & B will repair or replace the product, at our option, without charge.

This warranty does not apply where:

- * Repairs have been made or attempted by others;
- * Repairs are required because of normal wear and tear;
- * Product has been abused, misused or improperly maintained;
- * Alterations have been made to the product.

High density polyethylene (HDPE) components are warranted against fade, discoloration or deterioration for five years from the date of manufacture.

In no event shall A&B Accessories be liable for any indirect, incidental or consequential damages from the sale or use of the product. This disclaimer applies both during and after the term of this warranty.

A&B Accessories disclaims liability for any implied warranties, including implied warranties of merchantability and "fitness for a specific purpose" after the five-year term of this warranty.

This warranty gives you legal rights, and you may also have other rights which may vary from state to state. Some states do not allow the exclusion of limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. Some states do not allow limitation on how long an implied warranty exists, so the above limitations may not apply to you.

For over 22 years, A&B Accessories has added unparalleled beauty and comfort to the spa experience. Proudly made in the USA by skilled craftsman with renewable/recycled materials and the latest in manufacturing techniques.
